

Intrusion protection, detection and repulsion using a physical barrier

SI-TOP

Electric outrigger

PATENTED SYSTEM

EUROCLOTURE
SECURITY

SI-TOP FX and SI-TOP 360 are electrified outriggers that complete your perimeter protection. They can be installed on top of walls or fences.

Product strengths

-  Sensitive detection capability, simultaneously triggers a detection alarm with a repulsive function
-  No civil works
-  No false alarms
-  Physical deterrence

Applications

- Top of walls, fences, gates

Certifications

Our fence electrification systems have received French and Belgian APAVE certifications, and have been certified by Belgium's Ministry of the Interior.

SI-TOP FX

Alarm triggered by any attempt to disturb two high-voltage strands

SI-TOP 360

Alarm triggered when 360° overhead sensors detect mechanical disturbance of a strand

Choice of 45° internal or external overhang, straight or sloped

Standard 1 m (any dimension on request)

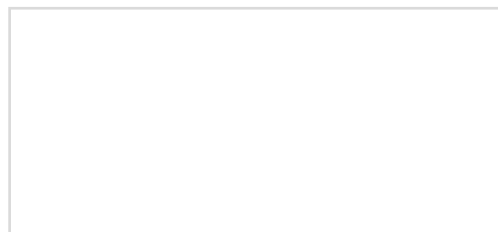

Detects prolonged holding, or cutting, of a strand

System filters ensure no false alarms
